Handled — Referral Pricing

Who earns what on a referred job, with the referral bonus shared half Handled / half the pro. Generated 2026-10-22 0522 UTC from the live pricing engine.

1. What a referrer earns

You refer…	Bonus	For how long
A person (your link or “send us a person”)	10% of Handled’s fee	Every job they book, 12 months
A one-time job (referral ticket)	20% of Handled’s fee	That job
A recurring job (referral ticket)	15% of Handled’s fee	Every visit, 12 months

Handled’s fee = what the customer paid – the pro’s full pay – refunds. Paid weekly through Stripe once the job is 30 days past completion (our make-it-right window); balances under $25.00 roll to the next week.

2. Who pays the bonus — shared

From jobs accepted on **November 22, 2026** (30 days’ notice under the contractor agreement, v10+): **half from Handled’s fee, half from the pro’s pay**. The bonus is worked out on the pro’s **full** pay, so the pro’s half never makes it bigger. The pro’s half is rounded down to the cent; Handled covers any odd cent. Pros see their half in dollars on the offer before they accept, and as its own line on their payout statement. Refunds shrink the bonus and both halves. Before that date, or when no pro is on the job, Handled pays the whole bonus.

Check on every row below: **customer pays = pro nets + referrer + Handled nets**, to the cent.

3. Landscaping — lawn care every 2 weeks

Customer pays **$150.00** per visit (Lawn Care). Pro’s full pay $112.00 · Handled’s fee $38.00 (25.3%). 26 visits in 12 months. A recurring ticket pays on every visit for 12 months.
