Re: RFQQ 184795 — Detroit Supply Schedule #2 — Janitorial/Custodial Services

Dear [Ms. _____]:

Handled Services LLC (“Handled”) submits this Statement of Qualifications in response to RFQQ 184795, Detroit Supply Schedule #2 for Janitorial/Custodial Services, and requests prequalification for ITEM 1 (Janitorial/Custodial Services) and ITEM 3 (Garbage/Trash Removal Service) [and ITEM 2 (Cleaning Services, Steam and Pressure)].

Handled is a Detroit-headquartered, [certified Detroit-Based Business (DBB) / Detroit-Headquartered Business (DHB) / Detroit Small Business (DSB)] that delivers commercial cleaning, floor care, trash and debris removal, window and pressure cleaning through supervised, vetted crews drawn from Detroit neighborhoods. Every service visit is recorded against a checklist with time-stamped before/after photos, so ordering departments can see what was done, when and by whom.

Handled commits to perform all work ordered under this Schedule in accordance with the requirements of the RFQQ, including the Scope of Work task frequencies, the position description qualifications for each labor category, the insurance requirements, and all City of Detroit ordinances and affidavits. By this submission Handled takes no exception to the terms and conditions of the RFQQ. Handled acknowledges Rider #1 and Rider #2 [and Amendment(s) No. ____].

Licenses and registrations held: Michigan limited liability company in good standing ([MI LARA ID #]); City of Detroit Oracle supplier registration ([Supplier #]); Detroit business certification ([type / # / expiration]); [City of Detroit business license, if required]; [SAM.gov UEI, if applicable]. Copies are attached.

Our single point of contact for this RFQQ is [Name, Title], at (313) 639-9373 or info@handledsvc.com. Thank you for your consideration.

Sincerely,

[Name]

[Title — must be listed on the LLC Certificate of Authority], Handled Services LLC

2. Items Offered

ITEM	Description (RFQQ Part 1)	Offered	Basis
1	Janitorial/Custodial Services — interior and exterior building cleaning; periodic heavy cleaning; daily inspections; bio-hazard clean-up and disposal per OSHA as needed	Yes	Supervised crews, floor-care and carpet extraction equipment; bio-hazard through OSHA-trained staff [or licensed partner]
2	Cleaning Services, Steam and Pressure — DDOT Gilbert & Shoemaker Terminal bays (6×/yr) and Rosa Parks Transit Center (18×/yr)	[Yes / No]	[Only if the required sweeper-scrubbers, 2,000-gal recovery tank, 2,000–4,000 psi water blaster are owned/leased AND 5 years of high-pressure cleaning at similar facilities can be shown — directly or through a named subcontractor]
3	Garbage/Trash Removal Service — City locations including parks, recreation facilities and outside City buildings	Yes	Collection, bagging, hauling to approved pick-up/disposal points; [vehicles and disposal arrangements]

Proposed labor categories (fully loaded rates to be provided per the RFQQ pricing instructions): Janitorial/Custodial Supervisor; Janitor/Custodian; **[Trash Removal Driver/Laborer]**; **[Pressure Washing Technician]**. Each complies with the RFQQ position descriptions (Supervisor: 5 years supervisory experience, HS diploma/GED; Custodian: 2 years experience, HS diploma/GED; both able to lift 30 lb and speak and understand English).

3. Factor 1 — Municipal Experience

(RFQQ limit: two pages. Minimum of two (2) years of municipal experience required.)

3.1 Years of municipal experience

[State the exact number of years Handled — or, for a joint venture, each JV party — has provided janitorial/custodial or trash removal services to a municipality or other public agency, and list the agencies. The RFQQ requires at least two years. If Handled itself does not yet have two years, this response must come from a joint-venture partner or the submission should wait; do not count non-municipal work here.]

3.2 Employees and resources

Measure	Response
Total workforce available to this Schedule	[] (employees [] · subcontracted crew members [])
Detroit-resident workers	[] ([] %)
Supervisors meeting the 5-year requirement	[]
Custodians meeting the 2-year requirement	[]
Surge capacity (additional vetted workers within 72 hours)	[]
Vehicles / major equipment	See Section 11

3.3 Organizational and accounting controls

- **Order control.** Every City purchase order is entered as a job with its PO number, ordering department, site, scope, and frequency; no work is dispatched without a PO and no invoice is issued without a matching PO line.
- **Time and service records.** Crews clock in and out by site with GPS-stamped records; each visit closes only after the checklist and photos are complete. These records back every invoice.
- **Accounting.** Books kept in Xero, reconciled daily against payment and payout records; separate job-cost tracking by PO and ordering department; [outside CPA: firm name] reviews [annually].
- **Payroll and compliance.** Workers paid weekly; certificates of insurance, background checks, and training records tracked with expiration alerts — lapsed items automatically block assignment.
- **Separation of duties.** Dispatch, quality inspection, and billing are performed by different people; [owner] approves all invoices to the City.

3.4 Intended use of subcontractors

[Choose one and delete the other:]

[(a) Handled will perform all work with its own employees.]

[(b) Handled will use the following subcontractor(s): legal name, address, services supplied, % of work. Each will sign the Covenant of Equal Opportunity and meet the same insurance, vetting and training requirements, and Handled remains responsible for all work. This must match Attachment A §4 and any subcontracting plan.]

4. Factor 2 — Past Performance and References

Three relevant current or past contracts within the past three (3) years, for Handled and any proposed subcontractors. [Only list contracts Handled or a named subcontractor actually performed, with the client's permission. If fewer than three exist, keep those you have and use the statement in 4.4.]

4.1 Contract 1

Field	Response
(a) Description of the project	[Scope, facility type, square footage, frequency, crew size]
(b) Contract number	[]
(c) Contract / order amount	[\$]
(d) Name of organization	[]
(e) Point of contact	[Name, title, address, phone, email]
(f) Current status	[Completed / in progress — start date, completion date]
Performed by	[Handled / subcontractor name] · key personnel: []

4.2 Contract 2

Field	Response
(a) Description of the project	[Scope, facility type, square footage, frequency, crew size]
(b) Contract number	[]

(c) Contract / order amount	[\$]
(d) Name of organization	[]
(e) Point of contact	[Name, title, address, phone, email]
(f) Current status	[Completed / in progress — start date, completion date]
Performed by	[Handled / subcontractor name] · key personnel: []

4.3 Contract 3

Field	Response
(a) Description of the project	[Scope, facility type, square footage, frequency, crew size]
(b) Contract number	[]
(c) Contract / order amount	[\$]
(d) Name of organization	[]
(e) Point of contact	[Name, title, address, phone, email]
(f) Current status	[Completed / in progress — start date, completion date]
Performed by	[Handled / subcontractor name] · key personnel: []

4.4 Statement if past performance is insufficient

[Use only if applicable:] “Handled Services LLC affirmatively states that it possesses insufficient relevant past performance that is directly related or similar to the efforts required by the Janitorial/Custodial Services, beyond the contracts listed above.”

5. Factor 3 — Quality Control

(RFQQ limit: two pages.)

5.1 Individuals responsible for quality control

Role	Name	QC responsibility
Quality Control Manager	[Name]	Owens the QC program; monthly unannounced inspections; corrective action plans; QC reporting to each ordering department
Account Manager	[Name]	Single point of contact for City departments; receives complaints and urgent requests; tracks open issues to closure
Site Supervisors	[Names]	Shift inspections against the site checklist; sign off every visit; first response to deficiencies

5.2 How potential problems and solutions are handled

- **Prevent.** Each site has a written site plan built from the RFQQ task frequencies (daily through annual) and the department's instructions; crews are trained on it before starting.

- **Detect.** Every visit: room-by-room checklist plus time-stamped before/after photos, reviewed before the visit is closed. Supervisors inspect each shift; the QC Manager performs unannounced inspections at least [monthly] per site using a 100-point form. Hazardous conditions (burned-out lights, loose railings, ceiling tiles, exposed wiring, broken windows) are reported verbally to the supervisor and in writing to the Project Manager with the date observed, as the RFQQ requires.
- **Correct.** A deficiency reported by a department is acknowledged within [1] hour and re-cleaned within [24] hours at no cost. Inspection scores below [90] trigger a written corrective action plan delivered to the Project Manager within [3] business days.
- **Prevent recurrence.** Root cause recorded (training, staffing, supplies, equipment); repeated deficiencies remove a worker or crew from City sites.

5.3 Quality when responding to urgent requirements

- Emergency line answered 24/7 at [phone]; a supervisor is on call every night and weekend.
- Standby crew of [] vetted workers who already hold City-site clearance, so urgent work is never staffed by untrained people.
- Emergency kits (spill response, PPE, bio-hazard bags, wet vacuums, signage) staged in [] vehicles.
- Urgent jobs use the same checklist-and-photo close-out as routine work, and the supervisor inspects before release.

5.4 Quality control across multiple purchase orders and ordering activities

- Each PO is its own job record with its own site plan, schedule, checklist, assigned supervisor, and department contact — so requirements from DDOT, GSD, Parks & Recreation or other departments never mix.
- A weekly operations review covers every open PO: visits completed vs. scheduled, inspection scores, open deficiencies, staffing.
- Each ordering department receives a [monthly] QC report for its POs: on-time visits, inspection scores, deficiencies and time to correct, emergency response times.
- Capacity check before accepting any new PO: Handled will not accept work that would pull supervisors or crews from existing City sites.

6. Solution / Approach to the Statement of Work

Handled will perform the specified cleaning and janitorial services at all City office facilities and work sites in a purchase order, at the frequencies in the RFQQ Scope of Work, which we treat as the minimum standard. Cyclical starting dates for monthly, quarterly, semi-annual and annual tasks will be set with the City Project Manager and Plant/Site Manager during the first month, and any change to duties, procedures or materials will be made only with the Project Manager's prior written approval.

6.1 ITEM 1 — Janitorial/Custodial Services: task frequencies

Frequency	Tasks (per RFQQ Scope of Work)
Daily	Dusting (no visible dust or cobwebs, treated cloths/HEPA tools); damp wiping; thorough sweeping; lobby glass spot-cleaning; restroom cleaning in the RFQQ sequence with closure signage and an agreed closing schedule; showers/locker rooms; lunchroom/kitchen; stainless

	steel with the grain; drinking fountains; empty waste receptacles; rubbish removal to dumpsters/compactors; HEPA vacuuming of carpets; dust/damp mopping; wet mopping and power scrubbing of heavy-traffic areas; restroom floors auto-scrubbed with enzymes
Every other day	Spray-buff hard floors
Weekly	Spot-clean walls, doors, glass, display cases; remove graffiti, tape and expired notices; clean whiteboards; eaves and exterior graffiti; ash receptacles and entry areas; remove/replace and extract carpet runners; scrub restroom and stairwell floors and walls; buff and wax (e.g., GSD, DDOT)
Monthly	Interior office glass and partitions; door hardware, switches, push plates, kick plates; air bars, vents, louvers and diffusers; kitchen appliances inside and out, vent hoods
Quarterly	Locker exteriors; piping and mechanical equipment surfaces; strip and wax hard floors (min. 25% solids finish); carpet extraction (commercial truck-mounted equipment)
Semi-annually	Storage areas, basements, ramps; fans, A/C and vents; interior and exterior windows up to 12 ft
Annually	Lighting diffusers, lenses and reflectors up to 12 ft; pressure-wash exteriors of buildings two stories or less; wash interior walls, steam-clean concrete walls
Immediately	Emergency clean-up assigned by the Project Manager; grease, oil and other spills; hazardous-condition reporting

Crew conduct: workers will not clean or tamper with computer terminals, screens or control panels, disturb papers, open desk drawers or cabinets, or use telephones, printers or other City office equipment.

6.2 Bio-hazard clean-up (ITEM 1, as needed)

Bodily fluids and waste, solid waste, and chemical clean-ups or spills will be handled under OSHA 29 CFR 1910.1030 (Bloodborne Pathogens) and 1910.1200 (Hazard Communication): trained staff with hepatitis B vaccination offered, PPE, EPA-registered disinfectants at label dwell times, red-bag segregation, and disposal through [licensed medical-waste hauler]. [If an outside licensed firm will do this work, name it in Section 3.4.]

6.3 ITEM 2 — Steam and pressure cleaning [[delete if not offered]]

Six cleanings per year at the Gilbert Terminal bays (~138,800 sq ft) and Shoemaker Terminal bays (~155,800 sq ft), and eighteen per year at Rosa Parks Transit Center (~65,000 sq ft), plus as-needed cleanings after spills. Method: trash and debris removal, scarifying, high-pressure hot-water washing with spin-jet attachments, and EPA-determined non-hazardous chemicals to remove oil, grease and scum; all dirty water collected into recovery tanks and disposed of under federal, state and local law, with manifests at no additional cost. Equipment: see Section 11.

6.4 ITEM 3 — Garbage/trash removal service

Collection and removal of garbage and trash at City locations including parks, recreation facilities and outside City buildings, on the route and frequency in each PO: litter pick-up, emptying and relining receptacles, bagging, and delivery to the approved pick-up point or hauling to [licensed disposal/transfer facility]. Vehicles: [number and type]. Route sheets with GPS-stamped photos at each stop are available to the ordering department.

6.5 Products and safety

- Green Seal / EPA Safer Choice products where performance allows; EPA-registered disinfectants for restrooms and high-touch surfaces.
- Safety Data Sheets on site; secondary containers labeled; color-coded microfiber to prevent cross-contamination; HEPA vacuums emptied daily.
- Wet-floor signage; incidents reported to the Project Manager within [24] hours.
- Key and access control: keys signed out and logged, codes never written on keys, lost keys reported immediately.

7. Response Timeline / Schedule

Event	Handled commitment
Quote in response to a department RFQ under the Schedule	Within [3] business days (site walk-through scheduled within [2] business days if needed)
Start of recurring service after PO	Within [5-10] business days
One-time / periodic service (floor strip, carpet extraction, windows)	Scheduled within [5] business days
Urgent same-day request	Crew on site the same day for requests received by [12:00 p.m.]
Emergency (spill, flood, bio-hazard), 24/7	Phone acknowledgement within [30] minutes; crew on site within [4] hours
Deficiency reported by department	Corrected within [24] hours at no charge
Hazardous condition observed	Verbal report immediately; written report to Project Manager same day

8. Technical Approach — Procedures

How Handled identifies, evaluates and communicates throughout a purchase order:

Step	Procedure	Communication to the City
1. Identify	Receive RFQ/PO; walk the site with the department contact; measure areas; note special conditions (security, hours, sensitive rooms)	Written walk-through notes
2. Evaluate	Build site plan from RFQQ frequencies; staff to the labor categories; confirm equipment and supplies; quote at Schedule rates	Quote and site plan for approval
3. Start	Orientation of crew to site rules; key and access issue; first-week supervisor present every shift	Start-up confirmation; contact list
4. Perform	Checklist and photo record each visit; periodic tasks on the agreed cycle	Visit records available on request
5. Inspect	Supervisor and QC Manager inspections; deficiencies corrected within [24] hours	Monthly QC report

6. Invoice	Monthly invoice per PO with service dates, hours by labor category and PO number	Invoice with backup records
7. Review	Quarterly review meeting with each department on recurring POs	Meeting notes and action items

9. Organization Chart

[Name] — Owner / Managing Member Contract executive; signs on behalf of the LLC		
[Name] — Account Manager City point of contact; POs, scheduling, invoicing	[Name] — Quality Control Manager Inspections, corrective action, safety & training	[Name] — Operations / Dispatch Staffing, routes, equipment, emergency line
Janitorial/Custodial Supervisors ([]) 5+ yrs supervisory	Janitors/Custodians ([]) 2+ yrs experience	Trash removal crews ([]) [Pressure-wash technicians ([])]
[Subcontractor(s), if any — name and services]		

10. Key Personnel and Resumes

Resumes for each key person are attached. Summary:

Name / role	Years relevant experience	Qualifications	Detroit resident
[Name] — Account Manager	[]	[]	[Y/N]
[Name] — Quality Control Manager	[]	[OSHA 10/30, BBP trainer, ISSA CIMS, etc.]	[Y/N]
[Name] — Janitorial/Custodial Supervisor	[5+] supervisory	HS diploma/GED; []	[Y/N]
[Name] — Janitorial/Custodial Supervisor	[5+] supervisory	HS diploma/GED; []	[Y/N]

Number of employees that can be dedicated to these services: []. Resume format for each attachment: name, role on this Schedule, employment history with dates and employers, janitorial/custodial or supervisory duties, certifications, education.

11. Equipment

Equipment	Qty	Owned / leased / subcontractor
Auto scrubber (walk-behind)	[]	[]
Low-speed floor machine / rotary buffer	[]	[]
High-speed burnisher	[]	[]
Wet/dry vacuums	[]	[]
HEPA backpack and upright vacuums	[]	[]

Carpet extraction — truck-mounted (preferred) or commercial portable	[1]	[1]
Pressure washer (hot water)	[1]	[1]
Ladders (up to 12 ft work height), signage, spill and bio-hazard kits	[1]	[1]
Service vehicles / trash removal trucks	[1]	[1]
ITEM 2 only — Tennant 8410 sweeper-scrubber (or approved equal), one per terminal	[2]	[1]
ITEM 2 only — 2,000-gal poly tank for dirty water recovery, one per terminal	[2]	[1]
ITEM 2 only — 2,000–4,000 psi water blaster with spin-jet floor attachment, one per terminal	[2]	[1]
ITEM 2 only — Advance CS 7000 sweeper-scrubber with power washer (or approved equal), Rosa Parks	[1]	[1]

12. Insurance

Handled will carry, at its own expense, the insurance the RFQQ requires, with the City of Detroit named as additional insured on the Commercial General Liability policy, and 30 days' prior notice of cancellation or reduction. Certificates will be provided before any work begins.

Coverage (RFQQ requirement)	Minimum limit	Carrier / status
Workers' Compensation	Michigan statutory	[Carrier • in force / bound on award]
Employer's Liability	\$500,000 each accident • \$500,000 each disease • \$500,000 policy limit	[1]
Commercial General Liability (City as additional insured)	\$1,000,000 per occurrence • \$2,000,000 aggregate	[1]
Automobile Liability — owned, hired and non-owned; Michigan No-Fault PIP/PPI	\$1,000,000 combined single limit	[1]
MCS-90 endorsement (only if hazardous waste is transported)	Per RFQQ	[N/A or carrier]

13. Licenses, Registrations and Compliance

- **Detroit certification.** This RFQQ is set aside for certified Detroit businesses. Handled's certification: [type / # / expiration — attach].
- **Fair-chance hiring.** Handled's employment application does not ask about criminal history; convictions are not inquired into or considered until after an interview or a determination that the applicant is qualified, per Detroit City Code §§ 17-5-261 through 17-5-266. Sample application attached.
- **Equal opportunity.** Handled and all subcontractors will sign and comply with the Covenant of Equal Opportunity; subcontractor covenants will go to the Human Rights Department before work starts.

- **Clearances.** Income tax and accounts receivable clearances [requested on ___ / received] (bit.ly/detroitclearances); evidence attached.
- **Financial responsibility.** Financial statements for the previous three years (balance sheet, income statement, profit and loss) attached[, with an explanation of any negative results or of years before the company was formed].

14. Submission Checklist

Rider #1 replaced the submission list: upload through Oracle (1) tax clearances and affidavits, (2) three years of financial statements, and (3) this technical proposal with cover letter, organization chart, key-personnel resumes, equipment and references. Attachment D lists the forms.

Document	Source	Notary	Done
Technical Proposal (this document) with resumes attached	Rider #1 (3)		☐
Attachment A — Respondent Questionnaire (completed)	City form		☐
Attachment B — Proposal Introduction/Approach (answered by Sections 1, 6, 7, 8)	City form		☐
Certificate of Authority — LLC version only	Attachment D #1		☐
Amendment Form — Rider #1, Rider #2 and any later amendments	Attachment D #2		☐
Consolidated Affidavits (Hiring Policy, Slavery Era/Prison/Detention, Covenant of Equal Opportunity, Political Contributions — enter NONE if none)	Attachment D #3	Yes	☐
Exhibit D — Non-Collusion Affidavit	City form	Yes	☐
Sample Employment Application	Attachment D #4		☐
Income & Revenue Tax Clearance — evidence of request	Attachment D #5		☐
Three (3) years financial statements (not tax returns)	Attachment D #6 · Rider #1 (2)		☐
SAM.gov registration screenshot (only if grant-funded)	Attachment D #7		☐
Detroit business certification	Set-aside		☐
Certificates of insurance (or broker letter)	Insurance section		☐
