

Cleaning covered — without the hiring.

To the hiring team,

I saw that your company is hiring for cleaning, janitorial or housekeeping help. Instead of another hire, would it help to have that work covered as a service, starting next week?

Handled sends vetted, background-checked, insured cleaning pros on the schedule you set. You get one invoice. No recruiting, payroll, taxes, workers' comp, time-off coverage or no-shows to manage.

How it works

- **Your scope, your schedule.** Daily, weekly or after hours, with the same pros on your account whenever possible.
- **Proof every visit.** Before-and-after photos and a checklist for each clean.
- **Covered if someone's out.** If a pro can't make it, we send a backup.
- **Make-it-right guarantee.** Tell us within 30 days and we fix it at no charge.
- **Simple billing.** Pay per visit by card, or one monthly invoice on approved terms.

The real cost of a \$16/hour hire

	Employee at \$16/hr	Handled
Wage	\$16.00/hr	Included in one flat visit price
Payroll taxes, workers' comp	about \$2–3/hr	None for you
Time off, sick days, no-shows	about \$1–2/hr	Backup pro at no extra cost
Recruiting and turnover	about \$1–3/hr	None for you
Real cost	about \$21–24/hr	Known up front

Typical employer cost ranges; your numbers may differ.

Could we do a 15-minute walkthrough this week? I'll quote it on the spot, and we can start with a trial clean so you can judge the work before committing. If you'd rather keep hiring, we can also cover shifts until your new person starts.

Thank you,

The Handled team
